The Committee is asked to:
Discuss the report and note the progression in delivery.
Strategic Objectives and Board Assurance Framework
<p>Strategy: To deliver the 18/19 stated outcomes in each of the STP Areas of Focus by end of March 2019, ensuring they are clinically focused and include quality.</p> <p>AoF6: To support the development of a workforce that will deliver the NW London agreed areas of focus towards new models of integrated care.</p>

Summary of purpose and scope of report
This report provides a summary of progress over the last quarter towards achieving the transformation objectives of the Health and Care Partnership.
What are the benefits of this project?
<p>The aim of the Health and Care Partnership is to deliver a shared health and local government ambition across NW London.</p> <p>The Partnership works to add value across the NW London Health and Care system and support tangible improvements to health and care services for the two million people who make up the NW London community, helping people to be well and live well.</p> <p>This report provides assurance that the NW London health and care system is effectively taking forward our strategic transformation objectives. The impact of this will be improved services and outcomes for the NW London population.</p>
Patient, staff and stakeholder engagement

Lay partners, patient and public representatives are members of the Partnership governance structures and are involved in all aspects of the transformation work.

Jargon buster

Integrated care – an umbrella term that covers a variety of efforts to join-up health and social care organisations to achieve greater efficiency and more continuity in care.

COPD – Chronic Obstructive Pulmonary Disease; term used to describe a variety of progressive lung diseases including emphysema, chronic bronchitis and non-reversible asthma.

PITStop – Primary care training programme focused on diabetes care.

Quality & Safety

Clear and accountable reporting to our governance structures is a key element in ensuring quality and safety of care in NW London improves.

The provision of regular reports on progress in delivering our transformation objectives is envisaged to have a positive impact on the quality and safety of care provided to the population of NW London.

Equality analysis

There is no foreseen adverse impact on equality from this report.

Finance and resources

The report summarises progress and does not specify any financial or resource implications.

Risk

No risks identified, as this is a progress report

Mitigating actions
