

## Clinical Advisory Group meeting for WSIC Dashboards 15 Marylebone Road 1<sup>st</sup> June 2017

### Attendees:

Representative	Organisation
Dr Tony Willis	GP, Clinical Lead for Diabetes NWL CCGs, Chair
Dr Laurie Slater	GP, IG Lead for Hammersmith & Fulham
Julie Orbell	Senior Case Manager, My Care My Way
Justin Nnawuchi	Whole Systems Practice Support Manager, West London CCG
Dr Mark Levy	Respiratory Diseases Lead for Harrow CCG
Chika Nwosu	Analytics Support, My Care My Way
Ben Treasure	NWL CCGs
Rachel Meadows	NWL CCGs
Adrian Shentall	NWL CCGs
Danielle Zakrison	NWL CCGs

### Summary of Key Decisions:

Decision ref	Key Decisions
1	Agreed that addition of activity-only community data from CNWL & CLCH is helpful, but want to move towards extraction of read-coded clinical data in future
2	Agreed to request data on all CLCH services, with the exception of West Herts Respiratory Service, Sexual Health & HIV nursing services
3	Noted need to encourage & incentivise more accurate coding of hospital data in long-term to support extraction of read-coded clinical data into Dashboards
4	Agreed that UCC attendance should contribute to a care plan being flagged as "out-of-date" on Care Plan Out-of-Date watch list
5	Agreed that UCC attendances should still count towards total A&E attendances on Heavy A&E User watch list
6	Agreed that UCC attendances should appear in a separate swimlane from A&E attendances when drilling down into specific patients in the Dashboards
7	Suggested alterations to Asthma Radar specification: <ul style="list-style-type: none"> <li>• Flag patients with more than 6 prescriptions of salbutamol inhalers in past year</li> <li>• Flag patients with less than 4 prescriptions of inhaled cortico-steroids in past year</li> <li>• Code for asthma attacks (using read code "H333." from GP records"</li> <li>• Flag for patients who have not been reviewed within 2 days of an A&amp;E admission</li> <li>• Replace Long-Term Conditions column with a "Risk Factors" column, showing number of co-morbidities of particular risk to Asthma patients (e.g. pregnancy, COPD, food allergy, rhinitis)</li> </ul>
8	Suggested to add more detailed explanation of Asthma Radar – either in tooltips when hovered-over, or on a front page to the Radar
9	Agreed to expand care home flag to include suggested new codes

10	Suggested to add functionality to filter & create lists of patients who are housebound, or in a care home, possibly via the List Maker
----	--

**Summary of actions arising:**

Action ref	Action	Owner	Due date
1	NWL to circulate agreed community data specification, along with example data mapping from CNWL	NWL	
2	NWL to explore ways of extracting read-coded clinical community data	NWL	
3	NWL to explore possible extract of read-coded clinical data from Urgent Care Centres	NWL	
4	Dr Mark Levy to share PRIMIS asthma tool screenshots, and presentation on guidelines for asthma care	Mark Levy	
5	NWL to tell Dr Levy which Brent & Harrow patients have objected to All Patients' data sharing	NWL
