Summary of Key Decisions:

Decision ref	Key Decisions
1	Agreed that a wider variety of users should be invited, including engagement with London North West NHS Trust & Chelsea & Westminster Hospital
2	Agreed that PAM score would be shown on all patient screens as part of patient information (as shown on slide 9). Agreed that PAM score should also be used as a sort criterion on the patient radar.
3	Agreed to use current BNF chapter mapping from HSCIC in asthma watch list
4	Asthma watch list – agreed to add column to show Asthma UK self-management plans. Nilesh & Tony to provide relevant read codes for EMIS and TPP SystemOne respectively
5	Asthma watch list – agreed that bar visualisation should be secondary to display of more clinical data
6	Asthma watch list – agreed to investigate potential addition of a column for “social prescriptions” - Angeleca to investigate relevant read codes
7	Agreed that a watch list should be developed for patients with COPD
8	Agreed that social care should be visualised as a swimlane on the activity screen, which expands when clicked on to see the 10 categories
9	Agreed that proposed method of switching between costed & uncosted dashboard is acceptable
10	Agreed that list of out-of-area providers is correctly prioritised
11	Agreed that discussion of the definition of depression as a Long-Term Condition was out of scope for this particular meeting
