

WSIC Dashboards: Logging in and navigating the Homepage

If you have any issues with accessing the WSIC Dashboards, or require a password reset, please email the NWL Service Desk on Service.Desk@nw.london.nhs.uk and attached the user access form for your practice/ network.

1. Navigate to <https://nww.analytics.southlondoncsu.nhs.uk>
2. Ensure you are using **Google Chrome/ Internet Explorer 11/ Mozilla Firefox** and an **N3 connection**
3. Make sure you put **nwlondon** before your username

Whole Systems Integrated Care (WSIC) Dashboards

Combining data from primary care, secondary care, community, mental health, and social care to help you view care received by your patients across North West London.

How to use

- Search for a patient and then select a patient summary view using the buttons below; or
- Choose a tool using the buttons below.
- Returning users should note that there are no longer 'costed' and 'uncosted' views: the visibility of financial information may be controlled using a dropdown menu at the top of pages including spend.

The Whole Systems Integrated Care Dashboards include tools for the following:

- Patient Selection and Case Finding;
- Management of patients with long term conditions; and
- Administration.

Feedback or queries? Please email the NWL Programme Team at WSIC.Dashboards@nhs.net

NHS Number (spaces optional)

Registered patients: 1,809,909

Map - colour represents weeks since latest GP data

Navigation Menu: Patient Selection, Long Term Condition Management, Population Health, Administration

Tools: Watch Lists, Patient Radar, List Maker

Long Term Condition Management Tools: Asthma Radar, Diabetes Radar

Callout Boxes:

- Hover over the practices you are authorised to view to find out date of last data extract
- Search for a specific patient by searching by their NHS number
- Select 'Patient Selection' to drill down to patient selection tools
- Select 'Long Term Condition Management' to drill down to Asthma Radar and Diabetes Radar
