

Sharing your information to **improve your care**

**North West London
Whole Systems Integrated Care (WSIC) Dashboard**

Easy Read

Version 4 | May 2018

Providing your care in a better way

We're making some changes to care services in North West London.

We want health and social care services to work together better.

We want all the different services to work with you as a team, keeping you well.

Sharing your health and social care information

We want to make sure that you're looked after in the best possible way.

We can only do this if all the health and social care professionals involved in your care can share information about your health and care.

This means sharing your health and care records with all the professionals who are looking after your health and care.

This means:

✓ You shouldn't have to repeat your health and social care information

✓ Care professionals should be able to find information when they need it

✓ You should be able to avoid unnecessary appointments and tests

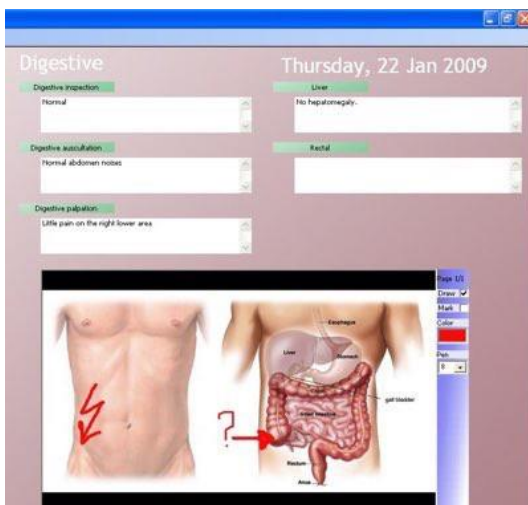

✓ You'll be more involved in decisions about your care

What information will be shared?

Only doctors, nurses, social workers and other health and social care professionals, who work with you, will be able to see your integrated records.

The WSIC Dashboard will include test results, medications, allergies and social, health and wellbeing information relevant to your care.

How will my information be used?

- Your care information may be shared with other professionals

- Your care plan may be discussed at meetings of professionals who are working with you

- Some information may be shared with other organisations to help them to improve services across North West London.

- We will remove your name and personal details from your record, so no-one will know it is your information. Only authorised researchers will be given access.

Is my information safe?

Access will only be given to health and care professionals, and authorised researchers.

It'll be held according to strict security rules in the UK and stored in line with data protection law and NHS guidance on keeping healthcare records.

Your choices

You have the choice about sharing through the WSIC Dashboard.

If you don't want to share your information you can opt-out at any time. Either via your GP, our website or email (details below).

You can also opt-out through the National opt-out Programme:

<https://www.nhs.uk/your-nhs-data-matters/>

If you would like to know more about your choices, please ask your doctor or care worker, or visit our website (details below).

If you decide to opt out, you may have to repeat your information when you see different care professionals.

How do I find out more?

If you would like to know more about how we are improving care across North West London, how we use your information or anything else please email us on:

NWLCCGs.wsic.dashboards@nhs.net
